CASCAIS
Tudo começa nas pessoas

VISION: To turn Portugal into an international leader for the development of marine bioresources and blue biotech.

MISSION: To support, organize and foster the Portuguese marine bioresources value chain.

HOW DO WE WORK?

- 1) Promoting the organization of the value chain and internal awareness amongst all players in the field;
- 2) Fostering knowledge exchange and market intelligence;
- 3) Promoting entrepreneurial and innovation activities to increase dimension of the sector and create jobs;
- 4) Promoting internationalization through events & missions;
- 5) Developing lobbying and promoting financial support to the sector.

WHAT DO WE OFFER?

BBA is a non-for-profit association that works in a multitude of flexible models to support its structure and foster its actions. We focus on the sea and its resources and how our society can sustainably benefit from this nature's power house. We can offer you:

- 1) A network of contacts and support to your actions
- 2) Promotion and dissemination of your successes
- 3) Central lobbying for the sector at national and EU levels
- 4) A range of customized services:
 - R&D&I competitive funding projects scanning and proposal preparation*
 - K2B (knowledge to Business) Initiatives
 - Entrepreneurship empowerment
 - Support to the creation of entrepreneurship support services to local agents
 - R&D&I Catalogues
 - Technological screening and matching with R&D groups
 - Events organization
 - Strategies for promotion and dissemination of skills and results of research, development and innovation (R&D&I)
 - Internationalization models
 - Financial procurement support
